Application for license.

Persons desirous of obtaining licenses to establish Private Warehouses for the deposit and keeping of spirits without payment of duty shall apply to the Commissioner of Salt and Abkári Revenue. With their applications they shall file descriptions and plans of the buildings in which they propose to establish Warehouses, and shall deposit the sum of Rupees 50 for each Warehouse for which license is requested. The said deposit will be returned to unsuccessful applicants.

Fee to be paid.

Licenses to be annual.

Licenses will be granted to approved applicants in the appended form, and will be in force for one official year only.

The Commissioner to appoint officer to charge of Warehouse.

2. The Commissioner will appoint such officer or officers of the Department of Salt and Abkári Revenue as he may see fit to the charge of each Warehouse. Where the Warehouse is so situated that it can be supervised by the ordinary establishments of the Department without additional cost to Government, no charge will be made for the services of such officer or officers. Otherwise, the Warehousekeeper shall pay monthly in advance to the Commissioner such sum, not exceeding the sum of Rupees 150, as the Commissioner shall from time to time direct, to cover the cost of the employment of such officer or officers.

When payment may be required for establishment.

Warehousekeepers may be required to provide quarters for establishments, on payment of rent.

In either case, if the Warehouse is established at such a place that suitable accommodation for such officer or officers is not to be hired at reasonable rates, the Warehousekeeper shall also provide such accommodation at rates not exceeding the following to the satisfaction of the Commissioner :—

	Per mensem. RS.	A.	P.
For each officer	15	0	0
For each petty officer and peon.	0	8	0

The receipt of spirits into Warehouses.

3. No spirits shall be received into any Warehouse unless accompanied by a permit from the officer in charge of the distillery wherein the same were made or of the Warehouse whence the same have been transferred; or, if the spirits be imported, by a permit from such officer or person as the Commissioner may from time to time authorize and direct to grant permits for the transport of imported spirits. All spirits received into Warehouses shall be gauged and proved on arrival, and the Warehousekeeper shall thereupon become responsible under Rule 8 for the quantity and strength of the same.

Government not liable for loss, &c., of spirits in Warehouses.

Government shall not be held responsible for the destruction, loss or damage of any spirits deposited in Warehouses by fire or theft, or by gauging or proof, or by any other cause whatever.

Country spirits to be issued only at authorized strengths.

4. Spirits of any strength may be deposited in Warehouses, but no country spirits shall be passed out of a Warehouse except at such strengths as country spirits are permitted to be sold at in the local areas for consumption in which they are declared.

Spirits may be blended in Warehouses.

5. In order that they may be able to issue spirits at the exact strengths at which their sale is allowed, Warehousekeepers will be permitted, on application to the officer in charge of the Warehouse, to blend spirits in store. Blended spirits must be kept in a separate receptacle.

The introduction of saccharine matter, &c., into spirits.

6. If any saccharine or other matter of such a nature as to obscure the indications of the hydrometer shall be introduced into spirits, duty will be calculated on the quantity and strength of such spirits as ascertained before the introduction of such matter. No allowance will be made under Rule 5 or under Rule 8 for wastage in such spirits after the addition of such matter and before removal from the Warehouse. Such spirits must be kept in a separate receptacle.

The issue of spirits from Warehouses.

7. The issue of spirits from Warehouses will be conducted under the same Rules as are now in force or as may hereafter be prescribed for the issue of spirits from Private Distilleries.

Account to be taken of spirits in Warehouses. Duty to be levied on deficiency in excess of the authorized amount.

8. An account will be taken of the Warehousekeeper's stock of spirits at such intervals not being greater than three months, by such person, and in such manner, as the Commissioner may direct. The Warehousekeeper shall pay to Government duty at the rate of Rs. 4 per gallon of strength not above proof and proportionately for higher strengths or at such other rate as may from time to time be fixed as duty on spirits imported by sea on all spirits which may be found deficient in his

stock and for which he shall be unable to account to the satisfaction of the Commissioner, in excess of an allowance of 2½ per cent. which will be made him for wastage.

Saving in case of accident.

Provided that if it shall be proved to the satisfaction of the Commissioner, or of such officer as he shall appoint, that such deficiency in excess of 2½ per cent. has been caused by accident or other unavoidable cause, the payment of duty at the above rate on such deficiency will not be required.

Warehouse to be under joint lock and key of officer and Warehousekeeper.

9. The Warehouse shall be under the joint lock and key of the officer in charge thereof and the Warehousekeeper.

The attendance of officers at Warehouses, where establishment is not paid for.

10. In cases in which the Warehousekeeper makes no payment on account of establishments under Rule 2, one clear day's notice shall be given to the officer in charge of the Warehouse of every consignment which is expected to arrive at, or is intended to be sent out of, the Warehouse. Two clear days' notice shall be given to open the Warehouse for operations other than the receipt or issue of spirits and shall be accompanied by a statement of the time intended to be occupied by such operations. The officer shall be bound to attend accordingly, but not during the night nor for more than one hour on any one day. If the purpose for which the Warehouse is opened is an operation other than the receipt or issue of spirits, such as blending, &c., which will occupy more than one hour, the officer shall be at liberty to lock up the Warehousekeeper or his agent or servants in the Warehouse and to leave them there to carry out such operation, returning to let them out after a reasonable interval not being less than three hours.

N.B.—Officers in charge of Warehouses will be instructed not to insist on the above notices where their other duties are such as to enable them to waive the requirement of them.

The attendance of officers at Warehouses, where establishment is paid for.

11. In cases in which the Warehousekeeper pays for the establishment under Rule 2, the Warehouse shall be opened and closed at such hours between sunrise and sunset as he may require and as the Commissioner may consider reasonable, except on Sundays and authorized holidays, when it will be closed except under the special orders of the Commissioner of Salt and Abkári Revenue and on such conditions as he may prescribe. Provided that the officer in charge of a Warehouse shall not be required to attend at the Warehouse for more than seven hours per diem.

The attendance of officers in case of fire, &c.

12. In case of fire or other accident, officers in charge of Warehouses shall immediately attend to open the same at any hour by day or night.

15. Warehousekeepers shall keep a regular account showing the quantity and strength of spirits received in, issued from and remaining in their Warehouses. Such accounts shall be open at all times to the inspection of the officers in charge of the Warehouses and of all superior officers of the Department of Salt and Abkári Revenue.

Noxious materials not to be used.

16. No ingredients noxious to health shall be put into the spirits deposited in Warehouses.

Warehousekeepers to give security.

17. Each Warehousekeeper shall lodge with the Commissioner the sum of Rupees 1,000 in cash, Government Promissory Notes, Stock Notes or Savings Bank accounts or shall execute a deed hypothecating his Warehouse, stock of liquor, &c., if of a value of not less than Rupees 1,000, as security for his due observance of the preceding and all other Rules herein contained or hereafter to be made under the Madras Abkári Act, 1886, or other law for the time being in force and relating to the Abkári Revenue, on the subject of Private Warehouses generally. In case of neglect or refusal to make such deposit or to execute such deed within ten days of the date on which the approval of his application for a license shall have been communicated to an applicant, such approval may be withdrawn and the fee already deposited may be forfeited, at the discretion of the Commissioner.

Removal of Spirits, &c., after expiry of license.

28. On the expiry of his license (unless a fresh license shall have been granted him for the next official year), or if his license shall be cancelled or suspended, every Warehousekeeper shall be bound forthwith to pay the duty on and to remove all spirits remaining within the Warehouse; and if he shall fail to do so within ten days of the receipt of written notice from the Commissioner so to do, such spirits shall be forfeited.

Ejection of riotous persons, &c.

The officer in charge of a Warehouse may eject and exclude from the premises any person whom he shall find to have committed or to be about to commit any breach of these Rules, or of the provisions of the Madras Abkári Act, 1886, or who shall be intoxicated, riotous or disorderly. All action taken by any such officer under this Rule shall forthwith be recorded by him in writing in his official diary for the information of his official superiors.

Warehousekeepers bound to obey all additional Rules.

30. Warehousekeepers shall be bound by all additional general Rules for the management of Warehouses or for the issue of spirits therefrom which may already be in force or which may hereafter be prescribed under the existing Abkári law or under any law which may hereafter be enacted, and shall cause all persons employed by them in the issue, &c., of spirits to obey all such Rules.

		Kuduguttadi Kadu.	This is situated on the Lower Palnis and consists of a long strip of land running conterminous with a portion of the north-eastern boundary of Marudanadiar reserved forest and between that boundary and the pathway leading from Tandigudi to Kannanur and to the west of the village of Kannanur. The boundaries are as follow :— *North and East.*—The northern boundary begins at a point on the Marudanadiar reserved forest lying directly west to the pathway leading from Tandigudi to Aiyampalaiyam and runs straight to that pathway and follows it, skirting some cultivation and then continues along a well-known and much-used path leading from Tandigudi to Kannanur first north and then east till the Marudanadiar reserved forest boundary is again met. *South and West.*—The north-western boundary of the Marudanadiar reserved forest.	Adjoins the Marudanadiar reserved forest. A putta holding of about 12 acres cultivated with cardamoms will be excluded or acquired at settlement.
		Oliyanutodai.	This proposed reserved forest is situated on the northern slopes of the Upper Palni Hills and between the eastern boundary of the Kudiraiar reserved forest and the western boundary of the Pumbarai-Vilpatti valley reserved forest and its recent addition—the Velamkombai block. The boundaries are as follow :— *North.*—From a point on the Kudiraiar reserved forest northern boundary near the junction of the Vannatiodai with the Pachaiar in an easterly direction along the survey line of stones in the plains as far as the point where the western boundary of the Velamkombai block ends. *East.*—From the same point almost due south to a hill called Vengaraimedu, from there to Kaduguserukan-malai, and thence to Naravarai Uchiya point on the Pumbarai-Vilpatti valley reserved forest western boundary. *South.*—From that point over the hill called Putturmedu on the Upper Palnis to Tanniparai-medu, a point on the Kudiraiar reserved forest eastern boundary. *West.*—From this point along Vannatiodai, the eastern boundary of Kudiraiar reserved forest.	Adjoins the Kudiraiar and Pumbarai-Vilpatti reserved forests. No private holdings are, it is believed, included within the proposed boundaries.
	Melur and Dindigul.	Karandamalais.	This proposed reserved forest comprises the slopes of an irregular-shaped mass of hills about 2,500 feet high, situated partly in the Dindigul, but principally in Melur Taluk. The range is well-known in the district and lies about 14 miles to the east of the town of Dindigul and 10 miles to the south-east of the town of Vadamadura and due north and about 2 miles, at its nearest point, from the village of Nattam. The range is surrounded on all sides by cultivation, and on the limits of their cultivation and at the base of the hills and all round the range the survey line of stones is placed dividing broadly the assessed from the unassessed waste. The boundaries can only be given very roughly, and, as regards cultivation, are somewhat as follow :— *North.*—The cultivated lands of Sengurdu and Setur villages. *East.*—The same of Pudupatti village. *South.*—The cultivation of Pinnampatti and Chakkiliyankudi villages and the Kappuravalli-Kuttu tract, sent up now for notification under section 25 of the Forest Act. *West.*—The cultivation of Pallapatti village and the eastern boundary of Tenkal, a tract like the one mentioned above included in a list just sent up for notification under section 25 of the Forest Act.	The three hamlets, called Malaiyur, Chinnamalaiyur, and Valsai on the plateau, with existing cultivation and an ample margin for extension and the exercise of free privileges will be excluded. The putta holdings, if any on the slopes, will be acquired or excluded at settlement.
	Dindigul and Melur.	Panjantangi Hills.	This proposed reserved forest consists of a chain of low hills situated at the northern limits of the Dindigul and Melur Taluks touching the Trichinopoly District boundary about 3 or 4 miles from the village of Ayyalur and between that village and that of Pillaiarnattam in the Melur Taluk. The boundaries can only be given very roughly, and are somewhat as follow :— *North.*—The Trichinopoly District boundary. *East.*—The Pillaiarnattam hills. *South.*—The hills to the north of the village of Shendurai in the Melur Taluk, and as far as the northern boundary of Mudimalai reserved forest, then that boundary across a saddle to the limits of Puttur village. *West.*—The base of a range of hills known as Shorimalai skirting the cultivation of Puttur village as far as the southern limits of Sundamalai, a tract now sent up for notification under section 25 of the Forest Act, then the eastern boundary of the same tract.	Adjoins the Panjantangi reserved forest in the Trichinopoly District. Two small villages, called Kombai and Panjantangi, with their cultivation, and a liberal margin for extension and exercise of free privileges will be excluded.

His Excellency the Governor in Council further appoints the Sub-Collector for the time being to be Forest Settlement Officer and the District Forest Officer, Madura, for the time being to attend at the inquiry prescribed by chapter II under section 4.

SUNDA STRAIT APPROACH.

PARTICULARS OF JASON ROCK.

The Netherlands Government has published the following information—on the authority of the Commander of H.N.M. Surveying vessel *Blommendal*—concerning Jason rock, approach to Sunda strait from the northward :—

Jason rock, the position of which has now been determined by the officers of the *Blommendal*, had not been seen or reported since the year 1712, though frequently searched for. It is found to be a dangerous coral patch, about 50 yards in extent, with a least depth of 13 feet, and 16 to 19 fathoms close around, lying with the following bearings :—

North Watcher lighthouse	N. 40° E.
Doea islet	N. 89 E.
Pulo Peblakan (or West island)	S. 62 E.

Position, lat. 5° 24′ 40″ S., long. 106° 16′ 00″ E., or N.W. ½ W., distant 1½ miles from that formerly assigned it.

NOTE.—The position of this rock is indicated only when there is a current; ripples over it were distinctly seen from the deck of the *Blommendal* at a distance of 7 cables; the sea was not seen to break on the rock, and the water was discoloured only in the immediate vicinity.

(*The bearings are Magnetic. Variation* 2¼° *Easterly in* 1886.)

MADRAS MUNICIPALITY,
PUBLIC WORKS DEPARTMENT,
Madras, 14*th April* 1886.

PROGRESS REPORT.

The following is the progress report of works executed during the two months ending 31st March 1886 :—

NEW WORKS.

ROADS.

Bridge at Cossapett.—The progress made in the construction of this bridge since my last report has been satisfactory. After laying concrete for the retaining walls, masonry was started, and the work on 31st March was one foot below springing level all round. Arrangements are being made for erecting centerings for the arches.

BUILDINGS.

A compound wall for the new cemetery in Cemetery Road, Washermanpett, estimated to cost Rupees 3,735, was the only work sanctioned during the last two months under report. Materials are being collected for this work, and a start will shortly be made.

All works previously sanctioned and mentioned in the last report as being under progress have been completed with the single exception of a latrine originally intended for Metoo Coomarappa Moodelly Street. The cause of this delay was noticed in the last report. A suitable site has been subsequently selected, and arrangements are being made with the owner for the purchase of the required land.

DRAINAGE.

Sewer No. 1.—The length of sewer completed during the two months under review was 1,096 feet. This was very satisfactory work, considering the difficulty in the disposal of the excavated earth during the construction of the masonry. A great portion of the excavated earth had to be carted to open grounds to the west of Davidson Street and brought back to the excavation for refilling after construction of sewer, as it was not possible to deposit the excavated earth by the side of the excavation owing to the existence of buildings on both sides of Popham's Broadway. The sewer is now completed up to Tandamootteapen Street. This brings the masonry portion of sewer No. 1 to a close. The remaining portion of the sewer consists of 18″ stoneware pipes. The laying of the pipes will be commenced after the completion of some sundry works, such as ventilators, on the portion already executed. The sewer between Tandamootteapen Street and the junction well at the end of Popham's Broadway is being carefully inspected with a view to let in the sewage from the surface drains.

The reform of Popham's Broadway in connection with the sewer has approached up to Mannady Street. An estimate, amounting to Rupees 1,540, for reforming the portion between Mannady and Giels' Streets is also sanctioned.

Sewer No. 2.—Both sections of the two-feet brick sewer were connected about the middle of March. This completes the entire l-ngth of about 4,300 feet of brick sewer to be constructed between Popham's Broadway and Peddoo Naick Street. During the two months, February and March, a total length on both sections of 917 feet was built. Preparations are being made for laying the 18″ pipe sewer from Peddoo Naick Street to a point south of Theroopully Street. The length of sewer completed on each section in the months under review was on section No. 2 455 feet, and on section No. 2-A 462 feet.

The quantity of work on each sewer was as follows :—

—	Excavation.	Concrete.	Brickwork.	Plastering.

Surface Drains.—Owing to the short outturn of bricks from the Municipal Brick-field, the progress has been tardy. The survey plan showing the widening and contemplated improvements to Andiappen Naick Street is in active preparation.

The approximate quantities of work completed were—

Other New Drains.—A wall in connection with the side drains laid in Thayer Sahib Street was sanctioned for Rupees 76. This work is completed as well as all drains reported in my last.

Under instructions from Government, an estimate amounting to Rupees 7,330 was framed for the extension and alteration of the existing Triplicane Sewage Farm Drain, which skirts the new proposed village to the west of the Buckingham Canal, occupying a portion of the site of the Triplicane Sewage Farm. This village is being formed in lieu of the one to the south of the Presidency College, which is to be removed. The estimate has been sanctioned by the Government, and the work has made a fair progress since it was started on the 24th of February. Government (*vide* G.O., No. 631, of 9th March 1886) have agreed to pay and have paid two-thirds of the cost of this work.

The quantity of work done up to week ending 28th March is as detailed below :—

Excavation	713 cubic yards.
Soorkee concrete	1,525 ,, feet.
Arched brickwork in chunam	2,399 ,, ,,
Cement plastering	36 squares.

Another estimate, amounting to Rupees 15,000, has also been sanctioned by the Government for laying pipes between Triplicane and Kistnampett Sewage Farms for conveying excess sewage to the latter place, as the greater part of Triplicane Farm has been taken up by the village site above referred to. The work will be taken in hand immediately after the completion of the drain now in progress. Government (*vide* G.O., No. 713, of 17th March 1886) have agreed to pay one-half the cost of this work.

HOUSE SERVICE.

One hundred and fourteen house services were laid during the months under review at an estimated cost to owners of Rs. 8,109-13-3, but this was not the amount received, as in many cases owners supplied their own materials. In addition to the above, twenty-three extensions were made to the existing services and sixty-one house-service pipes were repaired.

The Standard Barometer and Thermometers are read at 10 A.M., 4 P.M., and 10 P.M., and the daily means are obtained by the application of hourly corrections, deduced from twenty 'years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the Rain Gauge is two feet from the ground. The wind and rain registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 8·09 inches, the average due for the same period being 4·74 inches.

Thunder-storms occurred on May 30th and 31st, and twice on June 1st.
